

Design a board game to learn about Sea Creatures

DESIGN

Design a board game for learning about Sea Creatures. Use a board where you use dice to run around the squares. Have some squares which say things like - 'Eaten by a shark' or 'slipped up on a sea slug' to stop your 'game avatar' progressing, and add squares which say 'board a fast boat' to progress to squares ahead of you. Come on - you know what to do! Get started with your ideas below...
