Research an ocean creature

RESEARCH

Research a specific ocean creature

e.g. a penguin or a shark.

Write up your notes into a booklet named "Guide to Penguins" or "Guide to Sharks".

Put some questions into your booklet at the end - to test if anyone has really learnt something from your work.

OR

Write a short story about a day in the life of a sea creature.

Share it with everyone by posting your story on this website on the [NEWS](#) page - Comments section.

IDEAS

Write your ideas on the mindmap below:
